

AzSRC 1st Annual Abstract and Poster Presentation

Abstract and poster presentations will be on display during the Welcome Reception at the AzSRC 43rd Annual Conference and Expedition August 18, 2009 ~ 7:00pm.

Abstract and posters submitted by our professional and student bodies within Arizona. This is a great way to show what we are doing as a profession and share ideas with our colleagues. We also encourage submission to the National AARC Abstract Open Forum. We ask that you follow the writing guidelines initiated by the AARC which may be found @ www.aarc.org

For poster board presentations please keep them related to the field of Respiratory Care.

During the display each presenter will have 5 minutes to discuss their abstract and/or poster. Abstracts and posters will be displayed during the entire reception.

Submission: Please email your Abstract and or Poster topic to Amy.Bardin@bannerhealth.com by August 1st 2009. This will ensure we provide enough space for all displays.

Please encourage students and staff to participate.
This should be a great event.
